Executive Profile

A business-minded Full-Stack web developer specialized in **Frontend Web Design & Development and WordPress theme customization** with a unique competitive edge: 35 years of executive-level sales leadership, digital CRM transformation, and strategic advisory experience. Having driven multi-billion BDT revenue operations and engineered large-scale corporate software adoptions, I build web solutions with a deep, natural understanding of market positioning, user behavior, and commercial conversion metrics.

Discreetly active in contract web development and design consultancies since 2023, I leverage a strong foundation in full-stack concepts to deliver elite frontend experiences. I specialize in turning complex Figma mockups into responsive, high-converting websites using HTML5, CSS3, JavaScript, jQuery, Bootstrap, and Elementor Pro. By seamlessly combining robust coding standards with strategic insight, I build intuitive, performance-focused digital platforms and Woo Commerce storefronts that systematically convert visitors into customers.

Technical Competencies

- **Core Frontend Development:** HTML5, CSS3, JavaScript (ES6+), Tailwind CSS, Bootstrap, Responsive Layout Design, Figma-to-Code conversions.
- **Backend Engineering & Databases:** Node.js, Express.js, MongoDB database structuring, SQL architectures, RESTful API development, server-side data workflows.
- **Content Management Systems:** WordPress Custom Theme Architecture, custom PHP page templates & template hierarchies, Woo Commerce framework setups, advanced plugin logic.
- **Development Workflow:** Git version control, GitHub portfolio workflows, Visual Studio Code ecosystem, NPM package integrations.
- **Commercial Strategy Alignment:** Conversion Rate Optimization (CRO), UI/UX diagnostic auditing, user journey mapping, tech-to-business stakeholder communication.

Technical & Professional Training

- **Master Course on Web Design & Development (4-Month Intensive)**

Freedom IT Institutions, Dhaka

Completed immersive code modules focusing on full-stack application logic, asynchronous JavaScript, database schema modeling, and client-side optimization workflows.

- **WordPress Theme Customization (2-Month Intensive)**

Freedom IT Institutions, Dhaka

Focused on engineering clean, scalable template files from scratch, integrating robust dynamic hooks, styling elements with precision frameworks, and reducing asset overhead to optimize live page speed parameters.

- **Executive Education:** *Accelerated Sales Performance* – IIM Bangalore, India.

- **Advanced Certifications:** *Harvard Manage Mentor* (Team & Project Management), Capstone Business Simulation (Strategic Finance/Analysis).

Selective Web Development Portfolio

Frontend & WordPress Solutions

- **Transformed Figma mockups into fully custom websites** by combining semantic HTML5, CSS3, JavaScript, jQuery, and Bootstrap for pixel-perfect, mobile-responsive layouts.
- **Built and optimized high-converting e-commerce storefronts** using **Woo Commerce** and **Elementor Pro**, creating smooth checkout flows and dynamic product displays.
- **Customized WordPress themes and core template files** using custom hooks and functionalities to deliver tailored web designs that match unique client requirements.
- **Improved website loading speeds and user retention** by auditing frontend elements, optimizing media assets, and clean-coding layouts to handle high traffic efficiently.

Full-Stack Application Concepts (MERN)

- **Developed interactive web applications** using MongoDB, Express, React, and Node.js to bridge the gap between dynamic frontend interfaces and secure backend data.

Designed structured database layouts that handle user authentication safely and allow the user interface to update instantly without reloading the page.

Professional Experiences

Freedom IT Institutions | Web Developer (Contractual / Project basis) | 2024 - Present

- **Successfully delivered 50+ frontend and WordPress projects**, taking them from Figma designs to fully functional, live websites.
- **Convert complex Figma mockups into responsive web layouts** using clean HTML5, CSS3, JavaScript, jQuery, and Bootstrap frameworks.
- **Build and restructure high-converting e-commerce storefronts** using **Woo Commerce**, ensuring seamless checkout flows and product management.
- **Develop highly tailored custom layouts using Elementor Pro**, optimizing user experience (UX) without sacrificing site speed.
- **Provide agile technical consultation on a per-work contract basis**, advising corporate clients on modern frontend best practices.

Freedom IT Institutions | Apprentice Web Developer (Contractual / Project basis) | Apr – Dec 2023

- **Contributed to a high volume of project deliverables**, building strong foundational skills in rapid-turnaround frontend workflows.
- **Assisted senior developers with frontend coding tasks**, writing semantic HTML, CSS, and basic JavaScript/jQuery scripts.
- **Supported Woo Commerce customization updates**, modifying product loops, managing plugins, and populating store content.
- **Utilized Elementor and Bootstrap to build mobile-first web pages**, ensuring cross-browser compatibility and responsive layouts.

Asian Paints (Bangladesh) Limited | Divisional Manager / SRM / RM / Sr. AM | Jan 2004 –Dec 2025

- Acted as 'CRM Champion' driving Microsoft Dynamics CRM architecture implementation company-wide, transforming historical practices to modern workflows and bringing down resolution times from 18 days to 7 days.
- Spearheaded high-stakes divisions to secure key corporate expansions (30% YoY growth for premium national projects), balancing multi-million BDT budgets with 95% execution efficiency.
- Analyzed complex demographic trends and user friction points across multiple regional territories to optimize supply networks and logistics platforms.

Singer Bangladesh Limited | Sr. District Manager / District Manager
| Nov 1985- Dec 2003

- Engineered complete turnaround initiatives for struggling regional setups, maintaining a 23% compound annual growth rate with strict financial asset compliance.

Saudi Bangla Fish Feed Limited | Sr. Marketing Officer / Marketing Officer
| Oct 1990- Oct 1995

- Pioneered the concept of shrimp feed in Bangladesh, taking territory turnover from zero to 8.8 Cr.

**Academic
Credentials**

- **MBA in Marketing** (CGPA 3.92/4.0) | International Islamic University Chittagong
- **M.Sc. in Marine Science** (1st Class) | University of Chittagong
- **B.Sc.(Hon's) in Marine Science** (1st Class) | University of Chittagong

**Technical &
Global
Exposure**

- **Digital:** MS Excel Expert, Microsoft Dynamics CRM.
- **Global Insight:** Extensive business travel and dealer leadership across 25+ countries including Australia, England, Switzerland, France, Italy, Netherland, Belgium, and Japan.
